## ***Christiane Lyons in “Some Women A Total Portrait With No Omissions,” Meliksetian I Briggs, Los Angeles***

California artist Christiane Lyons debuts new paintings in her ongoing series “Some Women” in this exhibition. The series reimagines the history of the female figure in portraiture through Lyon’s signature hybrid paintings, which combine splices of multiple subjects into a single portrait. The images are in some sense painted collages, with the artist working from found imagery of women from random internet image searches, social media, and fashion photography.
